Information to applicants concerning exemption from license obligation for certain earth station operation in Sweden

The Authority would like to inform that the following type of radio transmitters in earth stations on land is, since 2008-10-01 according to revised Direction of Exemption from License Obligation (PTSFS 2014:5), exempted from individual license requirement in Sweden, and on following conditions:

- Frequency band: 14.0 – 14.5 GHz and 29.5 – 30.0 GHz
- Satellite terminals shall be included in the reported satellite network with which communication takes place
- Maximum power: 60 dBW EIRP
- The following power restrictions apply in the vicinity of aerodromes:

Maximum power EIRP.	Shortest distance from the perimeter of the aerodrome
< 34	0 m
34–50	500 m
50–55.3	1 800 m
55.3–57	2 300 m
57–60	3 500 m

In the use is exempted, then there is no need to notify the Authority, and there are no fees to be paid to the Authority.

Please note that if the intended earth station operation does not meet all of the conditions stipulated above, then the earth station operation is not exempted from license application to the Authority.
